Tasting part

Step 1

Each participating company, with its chef or technologist, prepares a tasting plate in a professional kitchen, with which it presents its products and technologies. (The kitchen is located at the venue of the event and is provided by the Organizer of the event). With its tasting plate, the company participates in the collective "menu" of the presentation dinner;

Step 2

A professional team provided by the Organizer serves 20+ portions of the tasting plate to each participant in front of the guests of the event - personally invited top 20+ chefs from the best hotels and restaurants in the respective location;

Step 3

Within 10 minutes, a representative of the company presents the content of the plates, the qualities of the products, the technology of preparation, applicability in restaurants and hotels.

The tasting part of the dinner takes place within 120 minutes, in two sets of 50 minutes and one break, as each participating company has 10 minutes to present its tasting plate. Total number of presenting companies - up to 10.

Exhibition part

Each company participating in the tasting program of the event has the right to an exhibition position in a separate space, in front of or directly connected to the tasting room. The position consists of a table and chairs for the presentation of small samples, promotional materials and the opportunity to talk with guests.

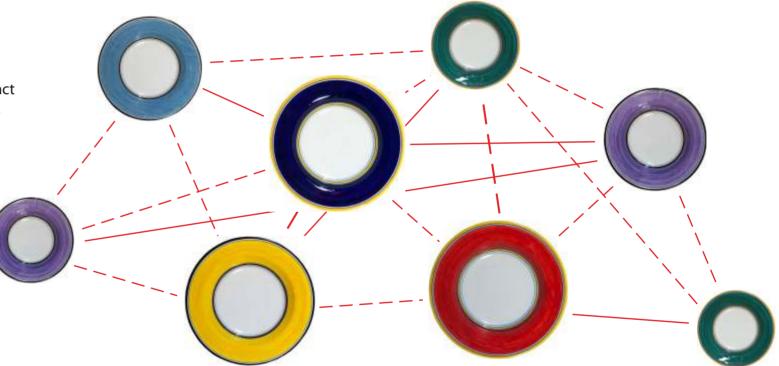

The exhibition part is also available for companies not participating in the tasting.

Networking

After the end of the tasting part, within 60-90 minutes, representatives of the participating companies have the opportunity for direct contact and informal conversations with the guest chefs.
